

BEAUTIFUL STONE STEPS MADE EASY.

MystiCrete's Random RockStep™ is the smart alternative to natural stone steps. With the weathered edge detail it is just as beautiful as natural stone. But, it's ¼ the weight of natural stone, making it truly lightweight and easier to install. In addition to saving on labor cost, RockStep has an affordable price compared to natural stone. It just takes a few simple steps to install RockSteps.

1 Dig out/ remove old steps. **2** Level area with traffic bond and tamp. **3** Wheel RockStep to the project area. **4** Carry, yes, carry to final position and set in place. **5** Admire the results.
